# Senior Choice at Home

A long-term care program designed to keep you at home

Sponsored by The Jewish Home of Fairfield County

The right choice for  
peace of mind...

The right  
choice for  
staying in  
your home...

Senior Choice at Home is designed to provide long-term protection for individuals who wish to remain in their home. It is a membership-based program that uniquely combines the most important features of long-term care into one comprehensive plan.

**Services include:** care coordination, transportation to and from medical procedures, an emergency response system, a referral service, social programs, home-based care (certified home health aide, companion/homemaker services, live-in assistance, meals, adult day services), assisted living, and nursing home care.

The right choice for  
financial  
protection...

Long-term care is expensive. Senior Choice at Home is designed to protect you from the uncertainties of spiraling costs. Members have the assurance that a total continuum of care will be available to them when needed, at a fraction of the cost if paying for these services separately.

Talk with your financial advisor. Membership and monthly fees may qualify as a tax deduction under medical expenses. And if you already have long-term care insurance, this program may complement it, allowing you to receive services as soon as possible and for as long as you need it.

The right choice because  
we made it simple...

Finding and managing long-term care services can be complicated. If your health changes and you begin to need assistance, it can be a very emotional and challenging time. Each member is assigned a Personal Care Coordinator who will help you and your family navigate through the maze and confusion of long-term care. Accessing services is as simple as picking up the phone and contacting your Personal Care Coordinator. There are no forms to complete, no claims to process.

Home...few words in our language harbor so much meaning or stir so many feelings. Home is where we choose to live our lives, where we find comfort, where we want to be.

**85% of Americans want to remain in their own home.**

If given the choice, wouldn't you want a long-term care plan that gives you the opportunity to stay in your home, simplify your future, and give you and your family peace of mind?
